## Call to Apply: IHCOR-Africa Research Leadership and Grant Writing Workshop 2023 Improving Hypertension Control in Rural Sub-Saharan Africa (IHCOR-Africa)

The UK NIHR-funded IHCOR Consortium is organizing a training workshop on Researcher Leadership and Grant-writing for early career researchers who are working on hypertension and related chronic diseases in Sub-Saharan Africa. This workshop will give experiences and skill sets that are required for professional and personal career development in health research.

**Venue:** MRC, The Gambia Unit at LSHTM in The Gambia, West Africa

**Eligibility:** Post-doctoral fellows, mid-level clinical researchers and PhD students. Candidates must be recommended by their line managers/supervisors. Applicants must show that they are working on hypertension and/or related chronic diseases.

**Funding:** Tuition is free; contribution to travel budget available on application

**Application Form:** A completed and signed application form and supervisor recommendation should be **submitted by 19th April 2023** to Research Training and career development Department, MRCG at LSHTM ([Training@mrc.gm](mailto:Training@mrc.gm) and copy to [Assan.Jaye@lshtm.ac.uk](mailto:Assan.Jaye@lshtm.ac.uk)). See the application form and programme attached.
